

*It is with great pride and pleasure we present to you the complete line of
“Distinctive Stone Statuary, Inc.”*

Come along with all of us, Greg, Sonny, Gary, Marvin, & Jason, as we introduce to you what we consider to be “our family tradition”.

Distinctive Stone Statuary, Inc. is a family owned and operated business with roots in the manufacturing of ornamental concrete dating back to 1962. The heritage of the Bechstein family runs deep in the state of Florida, spanning three decades of superior craftsmanship in the art of statue making. It is this commitment to excellence in the creation of stone statuary products that has made the name “distinctive” synonymous with the finest of quality hand crafted concrete products available throughout the southeast.

Color is the key to satisfying each and every customer no matter how distinguished their tastes may be. It is here that the “distinctive look” can truly work for you. Make your selections from the wide variety of unique products showcased throughout this catalogue. Choose from a “distinctive original”, sure to compliment any garden setting, or an old standard, still popular after all these years. Every piece is depicted in its most complimentary color based on sales popularity and our experience as artisans. However, we urge you to choose any one of the finishes available on the items you select to ensure the most suitable look for you and your customers.

We dedicate this book to the memory of the late Eileen Bechstein while thanking her for breathing the lifeblood of pride in craftsmanship that we carry with us to this day.

ORL.

“Thanks Mom”

The Bechstein Family

Distinctive Stone Statuary, Inc.

Distinctive Stone Statuary, Inc.

The complete range of our 35 “distinctive” finishes are combined onto this attractive color sample board. Each and every one of these finishes is a completely hand crafted two to three color process.* This process includes a U.V. stabilized clear sealer coating that provides the maximum protection available ensuring the enjoyment of your “distinctive” purchase for years to come. The color sample board can be ordered as stock #9627.

*Each finish is a singular creation handcrafted by skilled artisans. No two finishes are exactly alike. Please note this is in part what distinguishes each work of stone art as truly “distinctive”.

Ht. 55"x49" Diam. Bowl

Fountain Care®

Products formulated specifically for use with indoor and outdoor fountains.

Aquarium Pharmaceuticals, manufacturer of best-selling Pond Care® products, now introduces new Fountain Care® products, designed to solve the three major problems facing owners of closed fountain systems: white scale deposits, algae growth, and unsightly foam build-up. Since all three products feature waterproof packaging, they can be displayed indoors or outdoors. Plus, every case includes a PDQ (Pretty Darned Quick) on-shelf display, complete with a waterproof shelf talker that serves as a silent salesperson to boost sales!

Fountain Care® White Scale Control

Hard water ruins decorative fountains. Tap water, high in minerals, causes the build-up of crusty white scale deposits. Unsightly red iron and green copper stains ruin the appearance of statuary and fountains. Pump corrosion, caused by aggressive hard water, results in premature pump failure. White Scale Control protects valuable fountains and pumps and is safe for plants and fish.

Fountain Care® Algae Destroyer Liquid

Algal growth ruins the beauty and charm of fountains and statuary. Algae appear as green, brown, and black growth on fountain surfaces. Algae Destroyer Liquid controls the growth of many algae on fountain surfaces and in the water and it is non-staining. Algae Destroyer Liquid can also be used in fountains containing fish.

Fountain Care® Anti-Foam

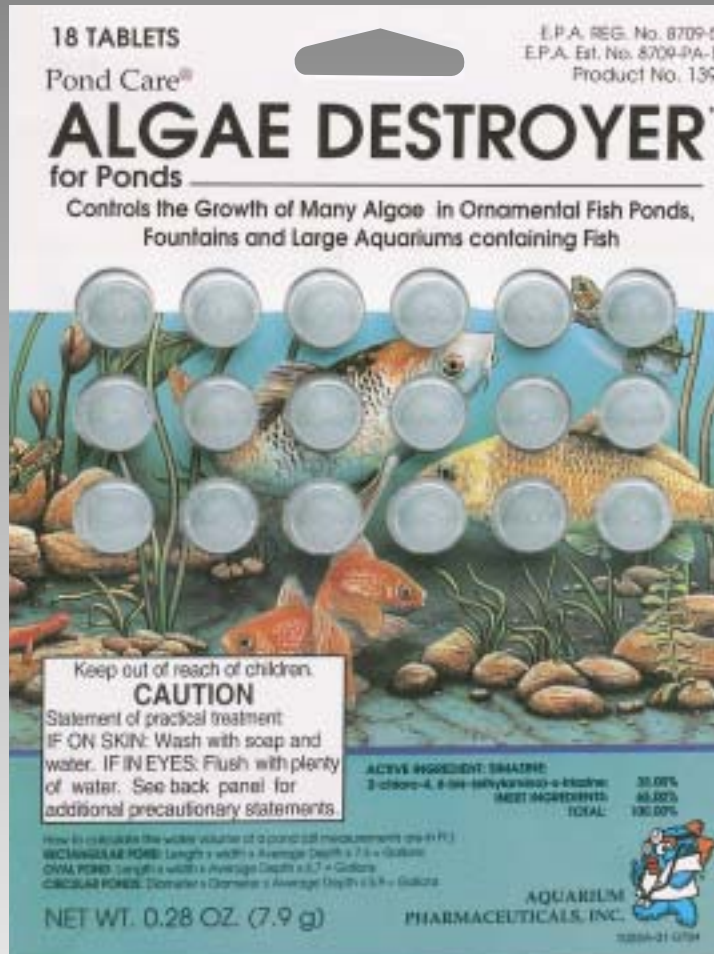

Unsightly foam build-up is caused by an accumulation of natural organic matter in the water. Anti-Foam eliminates foam in seconds. Anti-Foam is non-staining and can be used in concrete, resin, and metal fountains and statuary containing plants and fish.

#0291 ALGAE DESTROYER for Ponds,
card of 18 tablets treats 900 gallons of water

Pond Care®

ALGAE DESTROYER for Ponds

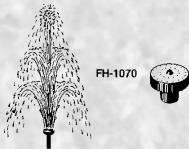

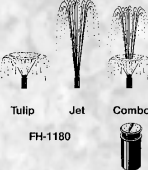

Controls the growth of many algae in ornamental fish ponds, fountains and large aquariums containing fish.

All pond keepers experience algal blooms during the water gardening season. Direct sunlight on the pond will allow algae to grow. Products used in the pond, such as fish food and some activated carbons, can add algae-promoting nutrients that stimulate the growth of green (Chlorophyta) and blue-green algae (Cyanophyta). These algae may look like a fine green coating, tufts of short "beard algae", or long strands of "hair algae". Free-floating algal cells often form "green water" blooms that are not easily removed. The growth of undesirable algae clouds water, and covers ornaments, gravel and live plants.

ALGAE DESTROYER controls the growth of many algae in ornamental fish ponds, fountains and large aquariums containing fish. Algae Destroyer contains the safest, most-effective algacide available. Caution should be used when using ALGAE DESTROYER as it will injure water hyacinths and water lilies. Available size: blister card of 18 tablets, packaged 12 cards in an attractive counter display.
